PROJECTS

Ride Booking Web Application

passengers-bd4cd.web.app

- Developed a ride booking platform using ReactJS, enabling users to book rides seamlessly.
- Implemented user authentication to secure accounts and personalize user experience.
- Built a responsive and user-friendly interface for desktop and mobile users.

Online Course Platform

programming-dojo.netlify.app

- Built a web-based platform for online courses using ReactJS.
- Designed interactive UI components to enhance user engagement.
- Implemented course listing and navigation features to ensure smooth user experience.

Weather App

asadullahbadhan.github.io/weather-app

- Created a web application using HTML, CSS, and JavaScript to provide real-time temperature for any city.
- Integrated API to fetch live weather data and display it dynamically.
- Focused on building a simple, responsive, and user-friendly interface.

WORK EXPERIENCE

Manager – Ruposhi Bangla Restaurants | 2018–2024

- Oversaw daily restaurant operations and ensured high standards of customer service.
- Managed staff scheduling, training, and performance evaluation.
- Coordinated with suppliers and handled inventory management.
- Implemented strategies to improve efficiency and enhance customer satisfaction.

LEARNING / TRAINING

- Web Development course from Programming Hero (ReactJS, Front-end Development) – Self-initiated learning
